Volunteer of the Month

Jennifere B. Worked that is valves in front and gas industry for over 35 years, with a great portion of that time spent in staff training and education, efforts for both safety training and assist integrity management programs. Jennifere holds a Bachelor of Science in Electrical Engineering from Iowa State University and is certified to attend training school to pass both the NDE and Water facilities. She helped organize a variety of courses in the Dallas area, including the Dublin, Ohio, and Youngstown, Ohio, Engineering Workshops.

Jennifere currently is a graduate student, and has given back to her community at the University of Dallas through her continued membership and activity in the Engineering Society. She also holds a variety of safety training sessions for both individuals and groups of people.

Jennifere has also served as an Adjunct Professor in the Master’s of Engineering at the University of Arizona. She joined the PE Board in 2013, and the University of Arizona, Texas A&M, and University of Oklahoma.

Jennifere is also an Adjunct Professor at the Midwestern University College of Medicine. She joined the PE Board in 2013, and was recently honored as an Adjunct Professor at the University of Oklahoma. She has been recognized as a PE Board Volunteer of the Month due to her dedication to the organization and her work in the field.

Thank you to our Sponsors

Events

Work Groups & Committees

Work conferences in our active and upcoming Work Groups and Committees. Here are a few highlights.

From the Safe Team at PDMS, we would like to express our gratitude to the Teledyne Field Lab, Canada for their contribution to the Safe States and JABS Practitioners in its role in helping people to support the development and conduct of safe projects. We also wish to express a special thanks to the Teledyne Field Lab, Canada for their contribution to the development and conduct of safe projects.

The Regulatory Data Standards Stakeholder Report and Committee feedback is being reviewed, and we are looking forward to the development of the regulatory data standards. The Alabama Energy Resources will also be available to discuss their progress in their comprehensive regulatory data standards.

To those who have joined the Professional Development Management Association, we want to acknowledge your contributions to the development and conduct of safe projects. We also wish to express a special thanks to the Teledyne Field Lab, Canada for their contribution to the development and conduct of safe projects.

Membership

We are grateful to support our members through these difficult times. As such, PDMS is offering the first 100 individuals a membership for free. This offer is limited to the first 100 individuals. For those who missed out on the opportunity, membership is still available and details can be found at www.pdm.org.

Thank You

The PDMS Board of Directors and the entire PDMS organization extend a heartfelt thank you to all who contributed to the PDMS Conference. Events included in the PDMS Conference include:

Certification

The certification application deadline for the PDMS certification is June 15, 2021. For those who missed the deadline, a new certification application deadline is available on the website.

For more information on these projects, as well as contact information, please visit our website at www.pdm.org.
