

# Parking Information

Parking for the 2017 Calgary Data Management Symposium,

Tradeshow & AGM is **FREE.**

In order to access the free parking rates, you will need to enter in a 5 digit event code (the code is different each day). You do not have to enter the code as soon as you park, however this code will expire at midnight so be sure you have input the code and registered your license plate before that time. Please use one of the pay machines located outside the main doors of the building. At the machine, press the “Events” button and follow the on screen instructions.

October 23 – 20116

October 24 – 20215

October 25 – 20323

You cannot use the ParkPlus phone app or Virtual pay machine (online) when given a 5 digit event code. You will be required to use the pay machines outside the main doors only.

Your car can remain in the Spark lot until 10:00am the next day. If it is not removed from the lot by then, we cannot guarantee that a parking ticket will not be issued.
