Business Life Cycle of a Well

January 2018

AGENDA

Some Thoughts

How to use the diagrams

Business Life Cycle Overview

PLANNING – The First Primary Business Phase

DRILLING – The Second Primary Business Phase

COMPLETING – The Third Primary Business Phase

PRODUCING – The Fourth Primary Business Phase

DISPOSING – The Fifth Primary Business Phase

Reference For Slides

There are 4 levels that will be dealt with.

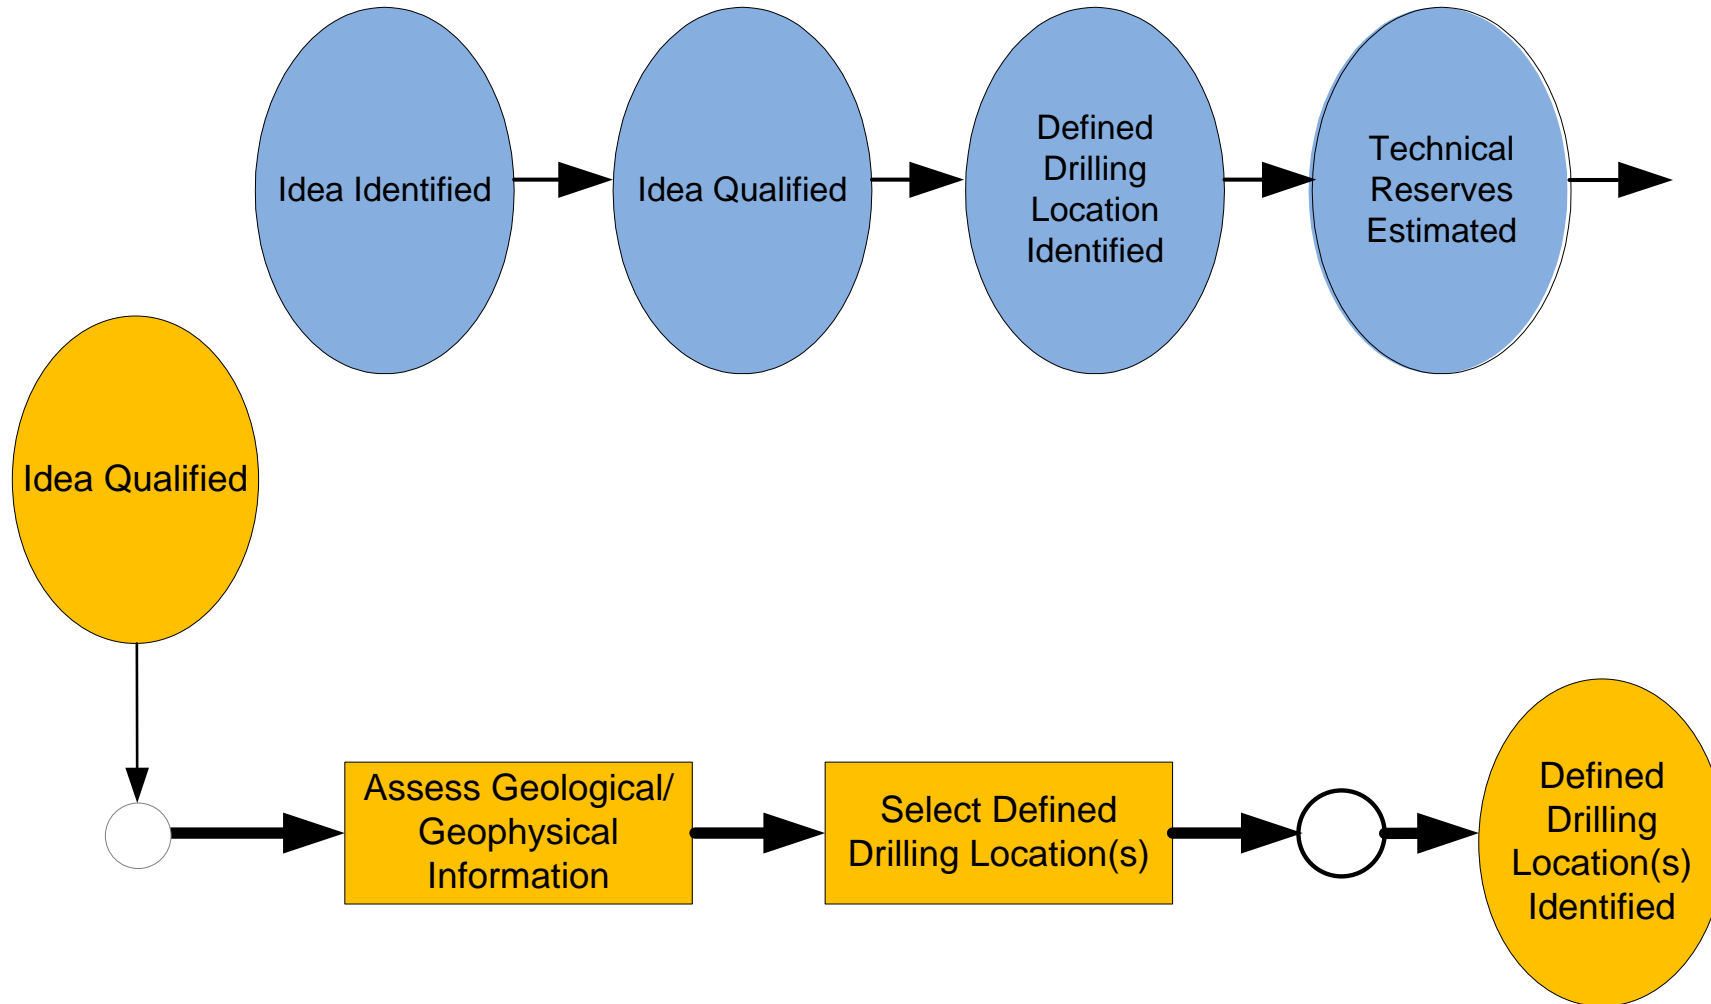

The Life Cycle is broken in 5 PHASES.

In each PHASE there are BUSINESS PROCESSES.

Within each BUSINESS PROCESS there are multiple SUB-PROCESSES.

Within SUB-PROCESSES there are ACTIVITIES. The lowest level is the ACTIVITY.

Diagrams – Business Processes & Sub-processes

For Each Activity - Questions To Be Answered

What is this Activity and why is it important?

Where in the sub-process did it come from?

What are the Inputs or Pre-Conditions?

Who gets notified that this Activity should start?

What roles are involved in this Activity?

What are the Outputs or Post-Conditions?

What systems / data are involved?

What is the Decision Point for the Activity?

Where does the sub-process go if the Decision is NO?

Where does the sub-process go if the Decision is YES?

Who gets notified that this Activity is Finished?

Are there Business Rules that relate to this Activity?

Are there any Corporate Policies or Strategies that apply to this Activity?

Diagrams – Workflow Activity Details
