FOUNDATIONS VOLUME 5 ISSUE 2

Do you have some great information to share with the community? Does your Association or Society want to spotlight some activities and achievements? Write for Foundations! Contact Foundations@ppdm.org to learn more about how we can include you in our Journal.

CAREERS

Are you hiring in the petroleum data management industry? Did you know that we can post our member's job postings free on our website? Send your information to info@ppdm.org to get your job posting online now.

VOLUNTEERS

Passionate about data quality? We now have 400 new rules pending member review and feedback prior to publishing. There are also opportunities available to get engaged with either the Professional Development or Petroleum Data Management Certification Committees. Contact us at volunteer@ppdm.org to learn more.

WORKING TOGETHER

Partnering with other Association is one of PPDM's goals; through shared resources, knowledge and skills. We understand that financial sponsorships may not be possible and encourage creative ways we can work together for mutual benefit. In the past, we have worked with other Associations as partners at our events, giving branding, recognition and other benefits in return for sharing information about our events. Working together strengthens our industry! We look forward to opportunities to partner with you.

WHAT IS A COMPLETION

Thank you to both the Work Group members and those that volunteered their time to provide their valuable feedback. The WIAC team has been reviewing all the feedback provided and adjusting the materials. Thank you to the volunteers on this Work Group for all their efforts in bringing together an excellent piece of work to this point.

PROFESSIONAL DEVELOPMENT COMMITTEE

The Professional Development Committee has been hard at work creating the new Professional Development Catalogue – your one stop shop for petroleum data management training. It's still in production, but keep an eye out for the launch of this catalogue in coming months. If your team needs training, be sure to connect with our Training group – training@ppdm.org.

The Professional Petroleum Data Management Association (PPDM) is the not for profit, global society that enables the development of professional data managers, engages them in community, and endorses a collective body of knowledge for data management across the oil and gas industry.
