

Calgary Machine Learning Workshop

Training Details:

Date: October 24-25, 2019

Where: TBD

Time: 8AM - 5PM each day

Cost: \$450 CAD for members (early bird)

\$650 CAD for non-members (early bird)

Note: A Laptop with Administrative Control to download tools is required for this course. Breakfast and lunch is included

Join Lewis Matthews and the team from the West Texas Data Science Institute for a hands-on Machine Learning Workshop.

PPDM Training At Your Fingertips: Why PPDM training? The Professional Petroleum Data Management (PPDM) Association has been leading the industry for more than 25 years – building standards and improving data management business practices. As we move towards a new era of technology development, it's essential to stay ahead of the latest advancements and how it impacts your business.

Lewis Matthews will engage and challenge you in this interactive and highly dynamic course. You will cover many bases related to machine learning, exiting the course with applicable real-world skills.

Bottom line - You'll save time, money, and gain refined petroleum data management expertise through PPDM training.

Course Snapshot: Throughout the course of this jammed-packed two-days, you will cover a broad array of topics, which include: Machine Learning, Scikit-Learn, KNN and SVM regression, hyperparameter tuning and more. Space is limited to 40 participants so register early.

Please visit www.ppdm.org/training to register to attend this event now!
