Points of Intersection

Janet Sinclair, PODS
Tony Aming, PIDX
Alan Johnston, MIMOSA
Points of Intersection

Agenda

• Success Criteria
• The Process
• Intermediate Results
• Final Deliverables
Points of Intersection

Success Criteria

• Clearly communicate and explain areas of core competency.
• Identify areas of common focus and determine if there are overlaps.
• Clearly identify gaps and needs.
• Do our customers use it and think it is helpful?
Points of Intersection

The Process

• Identify data perspectives.
  – Three high level views, so far...

• Rank each standards organization in terms of applicability.

• Further delineate and define.

• Iterate and explore.

• Summarize and present.
# Points of Intersection

- Hydrocarbon Reserves, Geology, Seismic, Wells
- Drilling Systems & Rigs
- Production
- Gathering
- Storage & Processing
- Transmission
- Refining
- Terminals & Distribution

Points of Intersection

Deliverables

• SLC will publish a white paper (10-20 pages).
  – Executive Summary
  – Narrative description of the process
  – Tabular and graphical results
  – Finite narrative descriptions of each SLC organization and the standards they provide.
  – Target completion of 1\textsuperscript{st} draft by 4Q13
